

Our Company

All of our hemp is grown right here in Broadway, NC! We are there every step of product development - from the seed to the bottle. Every crop and product is verified third party lab tested to ensure safety, purity and accurate cannabinoid profiles. Our products only contain our hemp extract, MCT oil (coconut derivative) and flavoring. No fillers, preservatives or artificial colors or flavors.

The Endocannabinoid System

The endocannabinoid system has been recognized as an important modulatory system in the function of brain, endocrine, and immune tissues, helping your body's cells maintain optimum performance. According to the National Institute of Health, manipulating the endocannabinoid system by introducing external cannabinoids, such as CBD, could be useful in treating a variety of medical ailments, especially pain.

Why Use Hemp Products?

Broadway Hemp is a great option for those who are seeking relief from pain and other symptoms without the mind-altering effects of THC or certain pharmaceutical drugs. CBD works with the body's endocannabinoid system to promote balance and healing. Hemp products are commonly used for:

- Pain reduction
- Inflammation control
- Stress relief
- Overall wellness and antioxidant support
